

## Grade 7 reading performance by school authority

Figure CRF7.5

### Grade 7 reading performance by school authority 2021

Year	Grade 7 MEANS Government	Grade 7 MEANS Non Government
2021	469.73	576.61

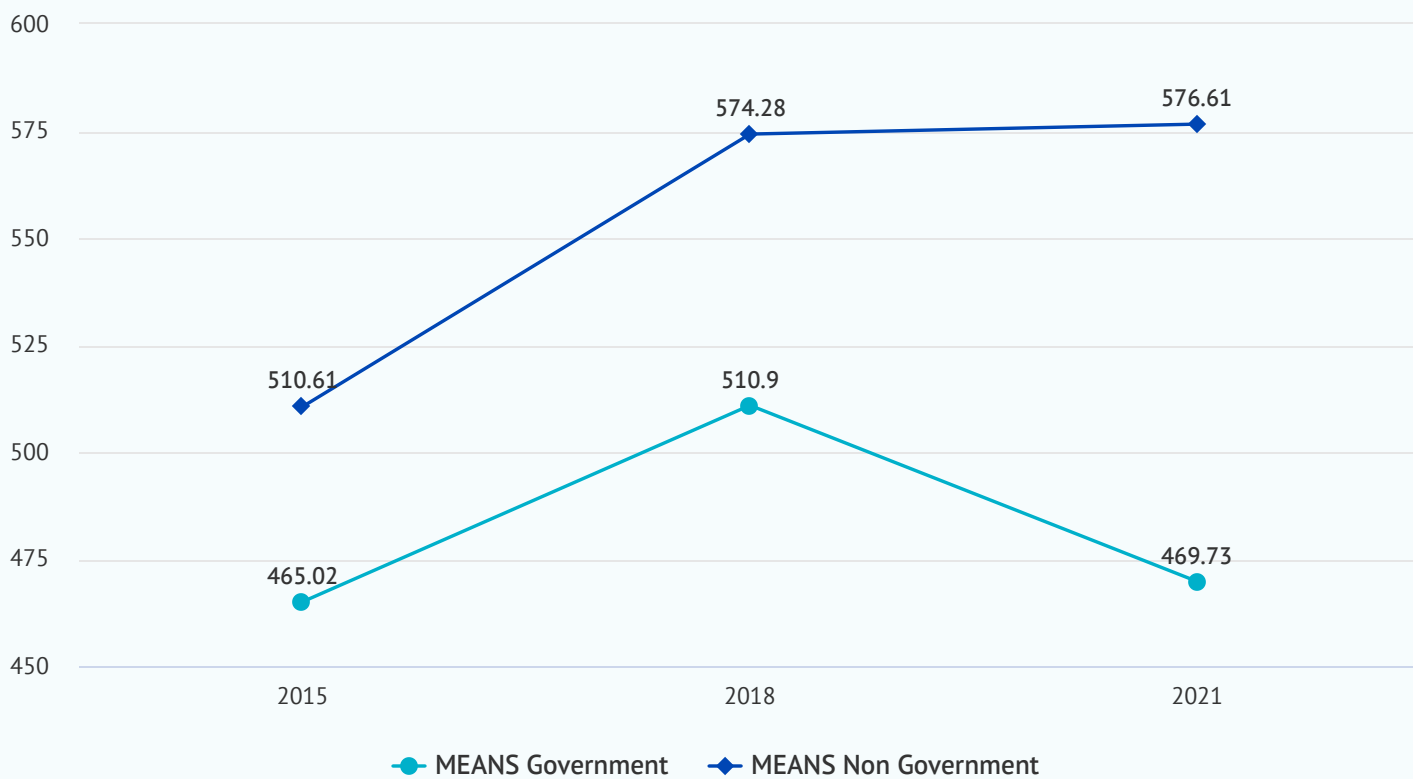

Mean performance of grade 7 students in domain and strands by school authority,FSM,PILNA 2021

More than 8 in 10 grade seven students are enrolled in government schools. Figure CRF7.5 shows the average reading performance of grade seven students by school authority. Students in non-government schools showed higher performance in the overall reading domain than those enrolled in government schools. Figure CRF7.6 compares the average reading scores of grade seven students in non-government and government schools from 2015 to 2021. It shows that grade seven

students in non-government schools achieved higher averages in the previous two cycles and that the gap between the performance of students in non-government and government schools has continued to widen over the three cycles.
