

Year 4 writing performance

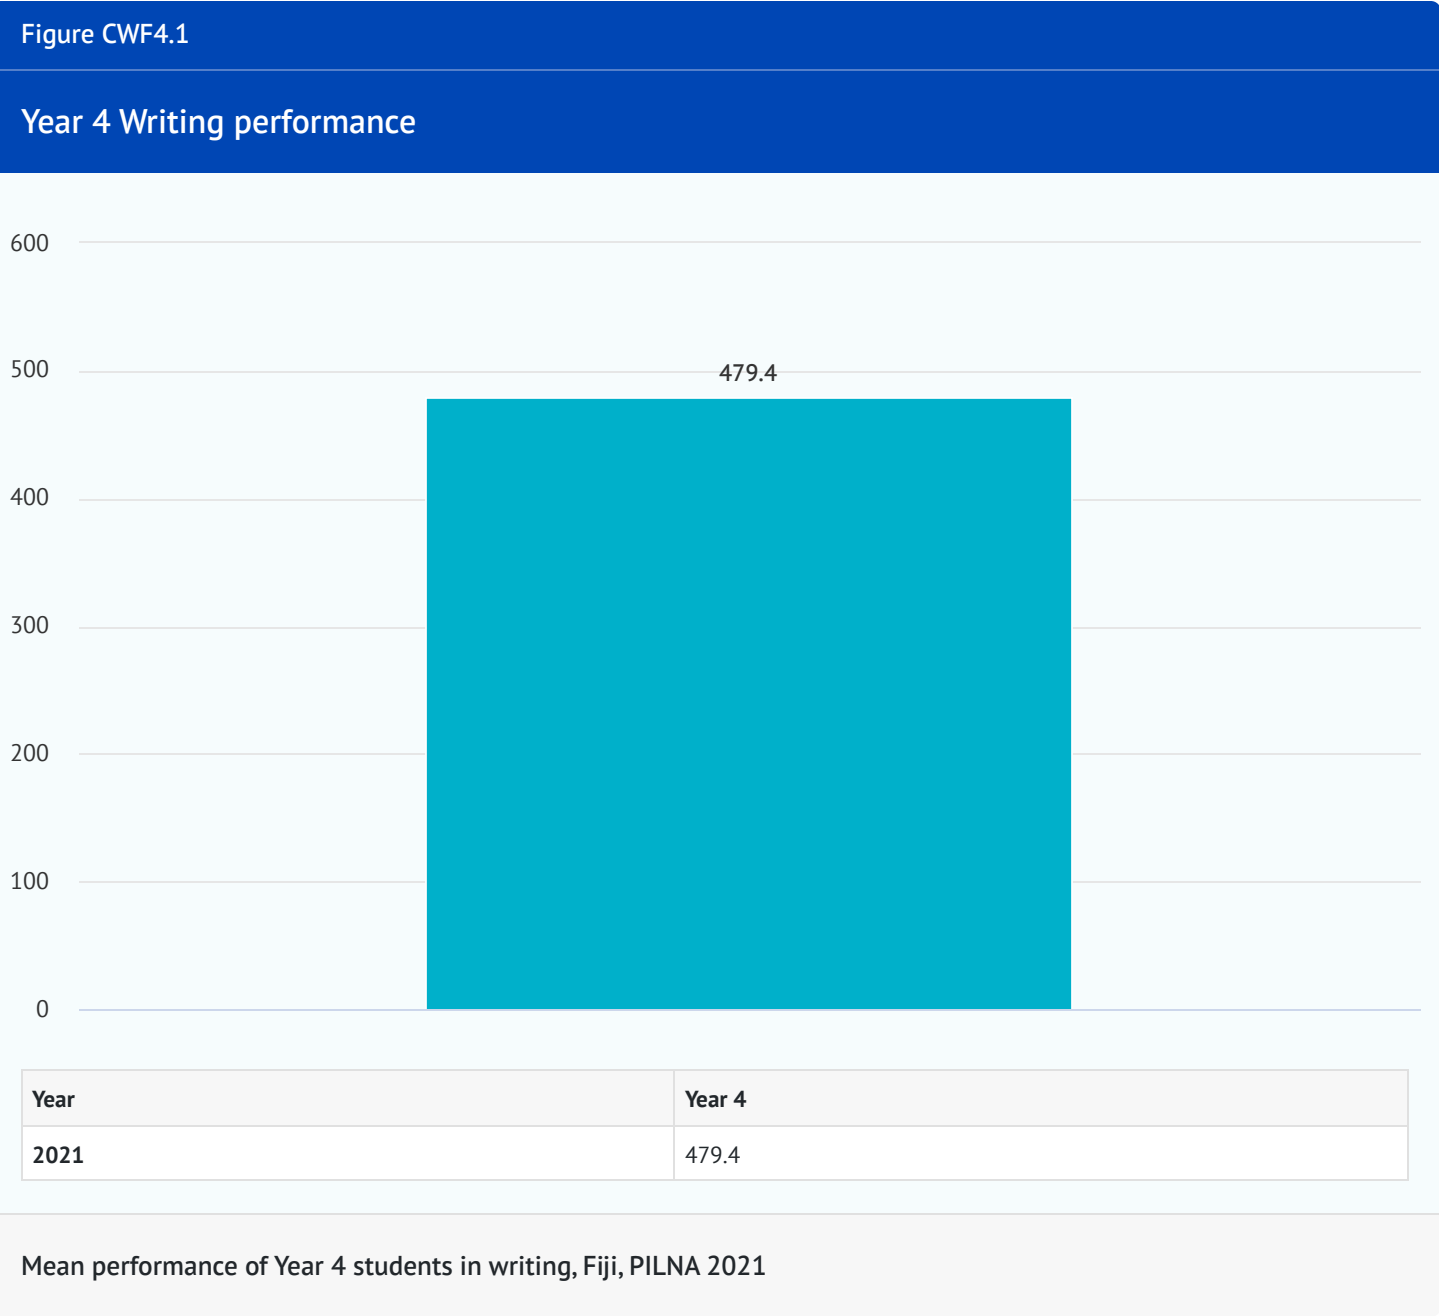

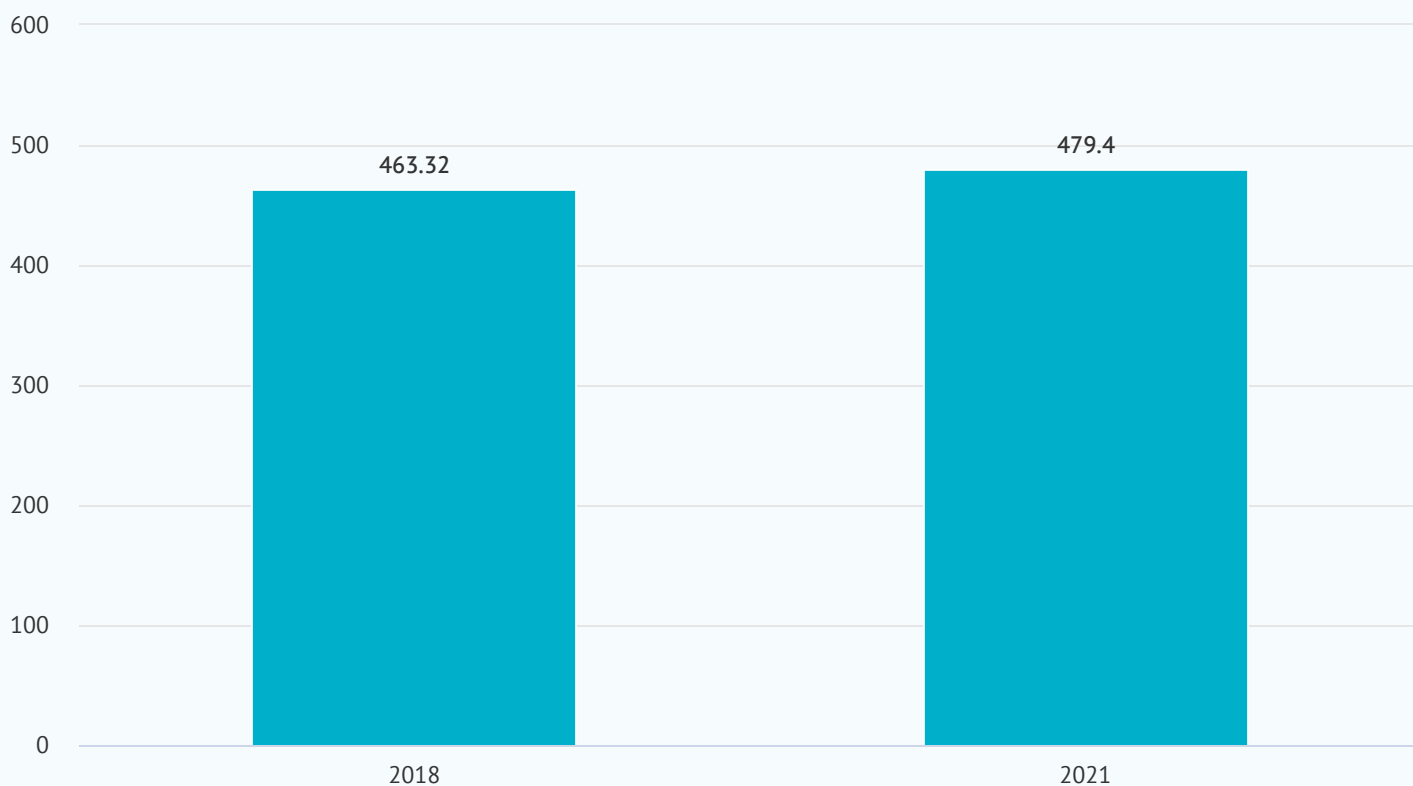

Figure CWF4.2

Year 4 writing performance over time

Year	Year 4
2018	463.32
2021	479.4

Mean performance of Year 4 students in writing, Fiji, PILNA 2018 and 2021

Figure CWF4.2 shows the average writing scores for this group and for year four students in Fiji in previous PILNA cycles. The score for these students in 2021 (479.40 (SD = 50.54) was higher than in 2018 (463.32, SD = 95.11), while the standard deviation for the average year four reading scores in 2021 (50.53) was substantially lower than in 2018 (95.11). This shows that the spread of writing scores in 2021 was narrower than in previous PILNA cycles.

Standard deviation shows how close data points are to the average. A lower standard deviation means that data points are, overall, closer to the average; a higher standard deviation means that data points are, overall, further away from the average.
